## GO LOCO FOR THAT COCO(NUT)

Avoiding dairy but still like whipped topping? **Rich Products Corporation's** coconut milk Café Whip is for you. The topping contains no high-fructose corn syrup, is vegan-friendly, comes with a light and creamy texture, and is available in both dairy and vanilla flavors—each with a hint of coconut. ## BREWS FOR TROOPS

**Founding Fathers Coffee** now offers five different roasts, each available ground or in single-serve cups. The kicker? Half of all Founding Fathers profits are donated to organizations that support American military families like the American Legion, so now you can take your coffee with a spoonful of patriotism. ## AVOID THE LANDFILL

Did you know fifteen billion paper coffee cups are removed from recycling equipment in the US every year and sent to landfills? Due to an interior plastic lining, traditional coffee cups are not recyclable. However, **reCUP's** new EarthCoating technology—manufactured to adhere to current paper recycling infrastructure standards—works the same as your old paper cups, but is totally recyclable and won't end up in the landfill. ## SAVE THE ELEPHANTS

Located in the Golden Valley of Bogawantalawa, Sri Lanka, **Elephantea** is now available in the US. Elephantea pledges to donate a percentage of profits to help fund local non-profits working to prevent poaching, harboring, and harming of Sri Lankan pachyderms. All Elephantea varieties are handpicked Ceylon teas grown in Sri Lanka's ideal elevation. [elephantea.com](http://elephantea.com)
